PROFILE

As a full stack web developer, I've gained practical knowledge in React, Next.js, and FastAPI. I enjoy building applications from scratch and figuring out how everything works—from layout to logic. My course included multiple projects that helped me build confidence and real-world coding skills. I'm now eager to start working with a company where I can develop further and make meaningful contributions.

EDUCATION

NTS Academy, Jaipur, Rajasthan

Full Stack Web Development   (2024 - 2025)

University of Rajasthan, Jaipur

Bachelor of Arts   (Graduated in 2021)

Rajeev Public Sr. Sec. School, Khejdawas, Jobner

12th (PCM)   (Passed in 2018)

TECHNICAL SKILLS

- Languages: JavaScript, Python, SQL
- Frameworks & Libraries: React, Next.js, FastAPI
- Database: MySQL
- Tools & Platforms: Postman, Stripe, GCP, Render, Git, Excel, Word
- Others: REST APIs, Responsive Design, Git/GitHub

PROJECTS

1. Bus Ticket Booking Platform *(Jan 2025 - Mar 2025)*

- Built a web app to search, book, and manage bus tickets with real-time schedule updates and admin panel.
- Stack: FastAPI, Next.js, SQL, Stripe
- Designed seat selection flow with email confirmations.
- Admin control for route and passenger logs.
  - 🔗 **web**

2. E-commerce Web Application *(Mar 2025 - May 2025)*

- Full-featured site with auth, product browsing, cart & orders.
- Stack: FastAPI, Next.js, MySQL, Stripe
- Integrated Stripe payments and responsive UI.
  🔗**web**

3. Gymster – Gym Membership Platform *(May 2025 - June 2025)*

- Users can explore plans, subscribe, and manage memberships.
- Stack: FastAPI, Next.js, Stripe, MySQL
- Secure Stripe Checkout, login-based dashboard.
